
Project Details

Project Name:	Online Examination System
Assigned To:	Simma Yarrannaidu
Due Date:	2025-04-01

Description:

Project Description:

The **Online Examination System** is a web-based platform that allows students to **take online exams**, while administrators can **create, manage, and evaluate quizzes and tests**. The system automates the exam process, making it efficient for educational institutions and training centers. This project will be developed using **PHP, Bootstrap, and MySQL** to ensure a **structured and automated exam experience**.

Features to Implement

1.

User Authentication

- **Student login** to take exams.
- **Admin login** to create and manage exams.

2.

Exam Management (Admin Panel)

- Admin can **add, edit, and delete exams**.
- Create **multiple-choice questions (MCQs)** with:
 - **Question Text**
 - **Answer Options**
 - **Correct Answer**

3.

Student Exam Interface

- Students can **select an exam and start answering questions**.
- Implement a **timer for time-based exams**.

4.

Automated Scoring System

- System **automatically evaluates MCQs**.
- Display **instant results and scores** after submission.

5.

Exam History & Score Tracking

- Students can **view past exam results**.
- (Optional) **Leaderboard to rank top scorers**.

6.

Database Management

- Store **exam details, questions, student responses, and scores** in MySQL.

7.

Security Measures

- Prevent **multiple exam attempts** by the same user.
-

-
- Secure database queries to **prevent SQL injection**.
