
Project Details

Project Name:	Gym Membership System
Assigned To:	Manchala Deepika
Due Date:	2025-04-01

Description:

Project Description:

The **Gym Membership System** is a web-based application that allows gym administrators to **manage memberships, track member details, and handle payments**, while gym members can **register, check their membership status, and view workout plans**. This project will be developed using **PHP, Bootstrap, and MySQL** to ensure an efficient and user-friendly system.

Features to Implement

1.

User Authentication

- **Member login** to view their membership status.
- **Admin login** to manage memberships and gym records.

2.

Membership Registration & Management

- Members can **sign up for a membership** and select a plan.
- Admin can **add, edit, or delete member records**.

3.

Membership Plans & Payment Tracking

- Different membership plans (**monthly, quarterly, yearly**).
-

-
- Track **payment history** for each member.

4.

Workout & Diet Plans

- Admin can upload **customized workout and diet plans** for members.

5.

Attendance Tracking (Optional)

- Members check in and **track their gym visits**.

6.

Admin Panel (Gym Management)

- View **active members, expired memberships, and upcoming renewals**.

7.

Database Management

- Store **member details, payment history, and workout plans** in MySQL.

8.

Security Measures

- Ensure **secure login and role-based access control**.
 - Prevent **SQL injection and unauthorized data access**.
-
