
Project Details

Project Name:	Discussion Forum
Assigned To:	Aman Kumar
Due Date:	2025-04-01

Description:

Project Description:

The **Discussion Forum** is a web-based platform where users can **create topics, post questions, reply to discussions, and engage in meaningful conversations**. It allows members to participate in structured discussions across various topics. The project will be developed using **PHP, Bootstrap, and MySQL** to ensure a **user-friendly and interactive discussion experience**.

Features to Implement

1.

User Authentication

- **User registration & login** to participate in discussions.
- **Admin login** to moderate and manage forum content.

2.

Forum Categories & Topics

- Admin can create **categories** (Technology, Education, Health, Business, etc.).
- Users can **start new discussion threads** under categories.

3.

Post & Reply System

- Users can **post questions** or topics for discussion.
-

-
- Other users can **reply to posts** with comments.

4.

Search & Filter Discussions

- Users can **search topics** by keywords.
- Filter discussions by **latest, most active, or category**.

5.

Admin Panel (Forum Management)

- Admin can **manage categories, remove inappropriate posts, and moderate discussions**.

6.

Database Management

- Store **users, categories, threads, and replies** in MySQL.

7.

Security Measures

- Prevent **SQL injection and spam posts**.
 - Restrict **unauthorized actions** using session-based authentication.
-
