Project Details

Project Name:	Online Quiz System
Assigned To:	Masool Shafeequr Rahaman
Due Date:	2025-04-01

Description:

Project Description:

The **Online Quiz System** is a web-based platform that allows users to **take quizzes online** and view their scores instantly. The system enables **quiz creation, question management, and result tracking**, making it useful for educational or training purposes. It will be built using **PHP, Bootstrap, and MySQL** for a dynamic and interactive experience.

Features to Implement

1.

   User Quiz Interface

   ○ Display **multiple-choice questions** one by one or all at once.

   ○ Timer functionality for timed quizzes (if required).

2.

   Quiz Submission & Scoring

   ○ Automatically calculate and display the user's **score** after submission.

   ○ Store quiz attempts in the **database** for future reference.

3.

   Admin Panel (Quiz Management)

   ○ Add, edit, and delete **quiz questions**.

- Set the **correct answer** for automatic evaluation.

4.

User Authentication (Login System)

- Users must **sign in** to attempt a quiz.

- Store user scores and quiz history.

5.

Database Management

- Store **questions, options, correct answers, user responses, and scores** in a MySQL database.

6.

Security Measures

- Prevent multiple submissions of the same quiz.

- Secure user data and quiz content against SQL injection.
