Project Details

Project Name:	Online Examination System
Assigned To:	Meddisetty Arjun Kumar
Due Date:	2025-04-01

Description:

Project Description:

The **Online Examination System** is a web-based platform that allows **students to take exams online** and provides instant results. It enables **quiz creation, question management, automatic grading, and user authentication**. The project will be developed using **PHP, Bootstrap, and MySQL** to ensure a dynamic and secure experience.

Features to Implement

1.

   User Authentication

   - **Student Login** to attempt exams.

   - **Admin Login** to manage exams and questions.

2.

   Exam Management (Admin Panel)

   - Create, edit, and delete **exams**.

   - Add **multiple-choice questions (MCQs)** with answer options.

   - Set a **time limit** for each exam.

3.

   Student Exam Interface

- Display **randomized questions** from the database.

- Timer countdown for each exam attempt.

- Submit answers and **prevent re-submission**.

4.

Automatic Grading & Results

- System evaluates **MCQ-based** exams automatically.

- Display **instant results** with scores after submission.

5.

Database Management

- Store **questions, answers, student responses, and results** in MySQL.

6.

Security Features

- Prevent **multiple exam attempts** from the same user.

- Secure login to avoid unauthorized access.
